1. In Tsingtao K. C. HSU, chief electrical engineer of the power plant and a holdover from the Nationalist regime, has probably been afforded the best treatment by the Communist authorities of any man in his sort of situation. He is a highly trained and intelligent technician, whose services are very much needed. He has not hesitated to criticize several Communist officials.
2. Gordon LIU (LIU Yi-lu) has continued to be Commissioner of Customs under the Communists. His residence, however, is guarded by the military. Early in October his servants were ordered discharged by the Communists, and he was told that he and his wife must take care of the family, house, and garden.
3. Several officials of the China Textile Industries, Inc. and minor officials of Government banks have been kept on, but there is no evidence that former Nationalists are being given preferential treatment.
